

Online Banking Instructions

You can:

- Make one-time or recurring transfers.
- See incoming ACH withdrawals or deposits before they post to your account.
- Set up online banking to use our mobile app and mobile deposit.
- Create E-alerts when your balance gets too low and much more.

Here's how to start:

Step 1: Click "Not Enrolled? Enroll Today!" If you've already received an email link from AppleTree, see step 2.

Step 2: You will receive an e-mail with a link to activate your registration and to receive your temporary password. You will need to activate your registration within 30 minutes. You will need the primary member's: member number, last name, SSN, zip code, and an e-mail address that you can access.

Step 3: Copy the password and return to Online Banking sign on. Fill in your member number and paste the temporary password. You will be required to change your password. You will then log into online banking using your member number and new password. You will then choose 3 security questions and answers.

PLEASE NOTE: The next time you log in, you will be required to change your Login Id to something other than your member number.

As always, give us a call with any questions!
